THE RESULT

Lip Nectar is a real lip pampering, a condensed oil that shows a super gloss look and at the same time takes care of the lips.

It attaches securely and stays shiny and soft for hours.

UNIQUENESS

It is not a simple balm, in the neutral version it has a strong make-up remover action of stain and no transfer products, softening the lip surface and acting as a deep treatment.

Bright Elegance Lipstick

RD-RSA072.AB

THE ORIGIN

Brilliance, comfort, hold and softness often fail to be expressed in a single lipstick. The balance is precarious and it happens that they lack one or more characteristics when looking for a creamy lipstick.

THE FEATURES

- ~ Creamy
- ~ Light
- ~ Long wearing
- ~ High grip
- ~ High Definition

FORMULA

- Blend of raw materials that gives a comfortable texture
- Oils with emollient effect
- Hyaluronic acid spheres (% functional)

-  FDA
-  CHINA
-  VEGAN FRIENDLY

-  FULL CLEAN
-  NO SILICONES

THE RESULT

The One, thanks to the action of a thin and highly adherent, moderately waxy film, manages to combine the characteristics of a classic lipstick with the modernity of its wear. A very thin film with a creamy and gliding surface that enhances a superior brilliance.

High definition of a creamy lipstick that easily defines the contours, fixing firmly to the surface of the lips. Maximum brilliance even in the absence of pearling.
